

THE NEW THEATRE

A theatre is a theatre in every sense of the word, one in which can not only be shown the greatest motion pictures now offered the public, but one that will accommodate the largest theatrical companies now playing in the largest cities.

A CHANCE FOR AN INVESTMENT THAT WILL YIELD A RETURN OF THIRTY PER CENT. TO FIFTY PER CENT. OR MORE ON YOUR INVESTMENT. A chance to invest in the greatest money making business in the world today---Motion Pictures.

The plan upon which this theatre will be built is the strongest one known---that of Co-operation. We want every man, woman and child to take stock in this enterprise, to own a part of it, to call it theirs. We want every person in Hopkinsville and Christian county to get together, to co-operate to build this sadly needed and money making theatre.

The very best business men in Hopkinsville are connected with this enterprise, have put their money in it, have expressed their faith in it as a money making proposition.

It is easy to understand that each person that is interested in this enterprise becomes a booster, if his money is there his interest is there also. The More People That Are Stockholders The More Boosters There Will Be And The More Assured Its Success.

We have already leased enough space in this theatre to pay all lease charges and taxes, insurance, etc., on property. We have nothing to do but figure up the profits.

Let us give you some inside figures in the matter. Let us show you where this is the best investment ever offered the people of Hopkinsville or Christian county.

This Theatre Is Going To Be Built---there are ten men in Hopkinsville that will supply the money---but the idea of this company is Co-operation to make it Your theatre for You to own it and have the pride in calling it yours. Every cent you invest in this proposition will be placed in trust in The First National Bank and not a cent of it will be touched until there is enough subscribed to commence work.

Call any of the following committee and let them give you details.

Did You Ever Stop to Consider

That an accident or sickness which destroys the use of arm or feet, or causes the loss of sight, is not only a physical calamity, but the most severe of all losses.

It Means the Wasting Away of An Estate Already Created.

the loss of any investment which is dependent upon the present or future earnings---in fact, the loss of the producing power, a disaster worse than death could bring.

Better talk it over with us to-day. Our policies offer better protection than others for the money expended.

SEASON'S PRICE RECORD PAID

Rate of \$102 a Hundred For Tobacco Is Established.

Lexington, Ky., March 2.—A new season's record for Burley tobacco leaf it is believed here was set today, when a basket was sold at the Burley house at the rate of \$102 a hundred. The tobacco was grown on the land belonging to Clarence Le Bus, former president of the Burley tobacco society, and now president of the Burley Tobacco company. Last week \$99.75 was paid for a small lot of tobacco at Owenton, and this was, as far as is known here, the high record for the season until today.

OLD ACQUAINTANCE

Renewed After Separation of Half a Century.

After being separated for 45 years Frank Graves and Jim Arbuckle, now citizens of the Decatur, met today and renewed acquaintance. The men had entered Mann's Meat Market, where they were introduced to M. S. Ellis.

"Why it's Frank!"

"And, if it ain't old Jim!"

These were the exclamations exchanged, when the two boyhood friends again clasped hands across a chasm of nearly half a century. They were born and reared in Christian county, Kentucky, and both left home after attaining manhood.—The Decatur, Ala., Daily.
